**About the Legacy Museum:** (see <https://museumandmemorial.eji.org/museum>)

The Legacy Museum provides a comprehensive history of the United States with a focus on the legacy of slavery. Situated on a site where enslaved Black people were forced to labor in bondage, the Legacy Museum offers an immersive experience with cutting-edge technology, world-class art, and critically important scholarship about American history. Along with the critically acclaimed National Memorial for Peace and Justice, the museum presents a unique opportunity for visitors to reckon with challenging aspects of our past.

**About the National Memorial for Peace and Justice:** (see <https://museumandmemorial.eji.org/memorial>)

The National Memorial for Peace and Justice was conceived with the hope of creating a meaningful site where people can gather and reflect on the history of racial inequality in the United States. Set on a six-acre site, the memorial uses sculpture, art, and design to contextualize racial terror.
